

## FAQ | ANSWERS

### **Is there any restriction for students who are currently studying for an MA or BA in architecture?**

The competition is open to all students with a student ID, i.e. registered at any university. BA and MA in architecture is not a requirement. Students from disciplines other than architecture are also invited to submit their ideas.

### **How do I get my registration number?**

By registering you will receive a confirmation email. You will not receive a separate registration number.

### **Should the submission text be a written reproduction of the 90-second video?**

The submission text does not have to be identical to the 90-second video. The video should give an overview of the topics the students submit.

### **Is it required to hand in pictures, drawings, and text in addition to the A1 submission?**

Yes, we require the individual components of the submission document (A1 format) for documentation purposes. Images as JPEGs, text as Word document, drawings in PDF format.

### **If you participate as a team, do all the team members have to register individually?**

It is sufficient for one team member to register on the website. However, all team members must submit the author's letter individually by May 6, 2024.

### **I have registered but I haven't received a confirmation email.**

Apart from the confirmation that appears right after pressing the registration button, you do not receive any further email confirming your participation.

### **Where and when should my team submit our author's letter to you?**

All team members must submit an author's letter and a copy of their student ID by May 6, 2024. Author's letter and student ID should be submitted along with all other materials in a compressed folder of max. 150 MB. The components of the zip file are as follows (see competition brief):

- Page in A1 format (portrait) with title (top right) as PDF file
- Video in MOV format (QTime) or MP4 with title as file name
- Text separately as Word file
- Drawing(s) separately
- Image(s) separately
- Author's letter and student ID (copy) of each team member

### **Are there any requirements for how the drawings should be created - by hand, with which program - or what they should represent - a plan, a 3D image, or some kind of collage?**

There are no guidelines as to how you want to visualize your idea.
